Model Year Definition

'Model Year' is a standard industry-wide term employed by US automobile and motor home manufacturers to designate annually changing vehicle designs. 'Model Year' does not indicate the year in which a vehicle was manufactured. A 2019 design or 'model', for example, may be manufactured anytime during the 2018 or 2019 calendar year. The model year of an Mighty Campers vehicle is always indicated on the vehicle registration.

Mighty Campers Motorhome

Mighty Campers continuously strives to provide our international guests with the best possible motor home product in the industry. To this end, we purchase units only from top RV manufacturers who make them to our higher than average specifications. All motor homes are 100% walk-through, equipped with 110V generator, microwave oven, stove, CD player, and modestly branded.

Motorhome Specifications

Motor home photos, drawings and floor plans provided are examples only. Sleeping capacities are recommendations only and do not mean like number of adults or full-size teenagers can be accommodated comfortably within every unit of a size category. Features and amenities are representative and may be changed, added to or deleted without notice.

Bed sizes vary from unit to unit within size categories and cannot be guaranteed. Specific floor plans or models will vary within a category and cannot be reserved or guaranteed.

Motorhome Lengths

Motor home lengths will vary within each size category. Specific floor plans, models or lengths cannot be reserved or guaranteed. It is the wholesaler's responsibility to explain clearly in their brochure/program that motor home category designations do not represent the exact length. For

example, if you designate the Class C Slide-Out model as an FS31, the lengths within this category may range from 30 feet to over 32 feet.

Motorhome Availability

Not all vehicle types will be available at all locations throughout the year.
